LANDSCAPING DESIGN AND INSTALLATION

Landscaping design is not only about plants, but includes water systems, drainage, lighting, pavers, hardscapes and more. Our team has experience with both native and tropical plants and the landscape conditions in our area. We can help you improve your existing landscaping, or design a whole new plan for your backyard oasis. Lawn maintenance is also a luxury we provide for lasting landscape beauty!

HARDSCAPES AND CUSTOM FEATURES

A patio is often a must for many homeowners. Having outdoor barbecues, parties, and other celebrations are a part of childhood memories. We can lay a patio to fit your space and lifestyle using your choice of many different kinds of pavers and stone. If that patio includes an outdoor kitchen or fireplace we can add that feature too!

PRIVATE OASIS

Fencing is about privacy and safety for your family and pets. We install fences using many different materials and know the importance of a good latching gate. Materials for driveways, pathways and sidewalks have changed a great deal and there are many materials for you to choose from. We can help you choose the best option for your home. Everything outside the four walls of the house is our job and we do it custom!

COZY FIRE PITS

Fire pits are fun. Roasting marshmallows, telling stories and laughing around a fire can make you feel like you are camping at home. We build many different kinds of fire pits and can design a special one for your family. But, if you'd rather have an outdoor fireplace we can do that too!

If walking outside and smelling the fragrance of a sage shrub is your idea of summer then you need a pergola. We build all shapes and sizes of pergolas.

Make sure you're getting the best of your custom pool and landscape design with Pool Life. We understand the process!
